<b>Abstract</b>	The Exhibitions Photographs Collection, 26.7 linear feet, contains photographs of exhibitions at the Baltimore Museum of Art from 1923 to 2008. Content mainly consists of gallery installation views, individual objects images, exhibition openings, and visitors to the exhibition.

## Scope and Contents

---

The Exhibitions Photographs Collection contains photographs of exhibitions at the Baltimore Museum of Art from 1923 to 2008. As not all BMA exhibitions were originally photographed, not all exhibitions are included in this collection, and the volume of materials ranges widely between exhibitions. The collection primarily includes exhibitions from the Museum's original temporary home at 101 W. Monument Street and the BMA Downtown gallery as well as the permanent Wyman Park location.

In some cases, photographs of exhibitions at other institutions are included, such as traveling exhibitions that also visited the BMA. Some named exhibitions that took place in the Museum shop, the Member's Room or the Sales and Rental Gallery are included alongside regularly held exhibitions. At the end of the Exhibitions series are partially and unidentified images of BMA exhibitions.

Content mainly consists of gallery installation views, individual objects images, exhibition openings, and visitors to the exhibition. In some cases, photographs of the artist, BMA staff or special guests are also included. Maryland and Regional Artists exhibitions photographs often feature the exhibition jurors as well.

Images from the Museum Shop catalog, the Sales and Rental Gallery, and 1989 Antiques catalog are also included in this collection. The Museum Shop catalog includes images of people and merchandise featured in the publication. The Sales and Rental Gallery images highlight individual artworks and exhibitions composed by the Women's Committee. The artworks displayed in the Sales and Rental Gallery were available to the public for purchase or loan. The 1989 Antiques catalog images include art from the BMA collection featured in different articles within the publication.

Formats include black and white and color photographic prints, black and white and color negatives (acetate and polyester), color slides, and color transparencies. For some more recent exhibitions, the Collection includes digital images, and their associated storage formats.

## Arrangement
